55014623R	Anthracite	Matt	60x60	20	Porcelain	Floor	1

A stack of light-colored wooden boards, possibly plywood or MDF, is shown from a low angle, creating a strong sense of perspective. The boards are stacked on top of each other, with the edges of many layers visible. In the upper center, there is a bright red rectangular label with the word "Accessories" written in a bold, yellow, sans-serif font. The background is a plain, light-colored wall.

Accessories

Cement Board

Designed to improve insulation and create a stable, solid and waterproof base for tiling. Quick to install with a fire-retardant surface, Cement Board is a long lasting and durable way of preparing both floor and wall substrates with ease.

Strong Build

Quick & Easy Installation

Non-Combustible

Ceramic

Lightweight and easy to clean. Unless stated otherwise, our ceramic tiles are suitable for use on **indoor walls only**.

Cleaning instruction:

Ceramic tiles can be cleaned with a non-abrasive, soap-free cleaning solution and rinsed or wiped clean with water.

Porcelain

Our porcelain **wall & floor** tiles are suitable for all indoor application provided substrate is suitable for the weight of the tile and adhesive.

They are suitable for use with both electric & hydronic underfloor heating.

For tiles less than 2cm stated suitable for use outside, your tiler must ensure these tiles are laid on a solid concrete base and that there are no air pockets present.

Cleaning instruction:

Unless stated otherwise, porcelain tiles can be cleaned using a non-abrasive mild cleaning fluid after being swept/brushed clean.

2cm Porcelain

Suitable for use on **outdoor flooring only**, all of our 2cm porcelain tiles are non-porous and are suitable for laying on level surfaces such as concrete, sand, gravel and grass.

For the best results, a 4-6" compacted gravel base is recommended.

Each of our 2cm porcelain tiles have a slip rating of R11 and higher.

Cleaning instruction:

After pulling any weeds and sweeping away any loose dirt, outdoor pavers can be cleaned using mild non-acidic cleaning solution that is non-abrasive. Jet washing is also a suitable method of cleaning and won't cause discolouration or fading.

All tiles can be prone to "bowing" caused during the firing process. We can confirm that any tile supplied complies with European standards and tolerances.

Thorough checks are conducted prior to shipping and upon arrival in our UK warehouse.

Always ensure you are happy with the finish of your tiles before laying.

Slip resistance and breakage strength must always be taken into consideration when making tile choices for wet and commercial areas.

For polished tiles, there are now slip resistance treatments readily available on the market if required.

Ceramica Impex

Our decades of experience in the tile industry means we can identify and recommend the right products for your business, selected from our diverse portfolio and covering “good, better, best” price points.

New ranges can be sourced and produced depending on your specific needs.
